

DECLARATION

The above information is true to the best of my knowledge. I agree to abide by the rules and regulations governing the course. If selected, I shall attend the programme for the entire duration. I also undertake the responsibility to inform the coordinator in case I am unable to attend the course.

Place:

Date: Signature of the Applicant

SPONSORSHIP CERTIFICATE

Mr/Ms/Dr _____ is an employee of our Institute / Organization and is hereby sponsored. He/She will be permitted to attend the programme in full, if selected.

Place: Signature of the Sponsoring Authority

Date: Office Seal

Application form completed in all respects is to be sent to:

Dr.T. Abirami
Professor,
Department of IT,
Kongu Engineering College,
Perundurai, Erode-638 060, TamilNadu
Mobile: +91- 9788654804

ABOUT THE COLLEGE

Kongu Engineering College, a leading research-oriented institution with excellent facilities, is run by Kongu Vellalar Institute of Technology Trust and was established in the year 1984. The Programmes of the institute are accredited by NBA and the institute is accredited by NAAC with A++ grade. It is an autonomous institution affiliated to Anna University, Chennai. It consists of 167 acres of land richly endowed with beautiful green land. The college has completed 42 years of dedicated and excellent service to the people of India and abroad in the field of Technical Education. The college offers 18 UG Programmes, 7 PG Programmes and 16 Research Programmes in Engineering, Applied Sciences and Management. Kongu Engineering College ranked in the band of 101 to 150 in 2025 NIRF. The institution has established Technology Business Incubator (TBI) supported by Department of Science and Technology, Government of India in its campus. TBI@KEC has won the National Award, for the best TBI in India, presented by President of India.

ABOUT THE DEPARTMENT

The Information Technology Engineering department occupies a prominent place in the chronicles of its academic history in Kongu Engineering College since 1998. The department has been consistently producing illustrious Engineering graduates of high caliber who occupy prestigious positions in the academic and industrial fields. The department offers B.Tech. programme and Ph.D. in Information Technology. The department has also been carrying out many consultancy activities to industries. Besides teaching, the department is actively involved in research and conducting training programmes for students and practicing Engineers.

industries and R&D organizations can also participate.

HANDLING EXPERT

Experienced faculty members or experts from various reputed institutions and industry will handle the sessions.

REGISTRATION FEE DETAILS

Details	Amount
Registration	Rs.200 + (18% GST) (Faculty & Students)

The registration fee includes refreshment.
E-Certificates will be provided to all the participants.

HOW TO APPLY

The applicants should send their applications in the specified format through their Principal / Sponsor to us on or before 01.09.2026. If selected, they should confirm their participation in time.

OBJECTIVE

The primary objective of the seminar on “Artificial Intelligence for Next-Generation Cybersecurity in Extended Reality (XR) Systems” is to explore the integration of advanced Artificial Intelligence techniques for enhancing cybersecurity in immersive XR environments. The seminar aims to provide a comprehensive understanding of emerging security threats, privacy challenges, and vulnerabilities associated with virtual, augmented, and mixed reality platforms. It highlights AI-driven approaches such as machine learning and deep learning for real-time threat detection, user authentication, and secure data management in XR systems. Additionally, the seminar intends to promote interdisciplinary research and innovation by bringing together experts from cybersecurity, artificial intelligence, and immersive technologies. It also focuses on creating awareness about the importance of secure XR applications in critical sectors such as healthcare, education, defense, and smart industries.

PROGRAMME CONTENTS

- Extended Reality (XR) integrates AR, VR, and MR for immersive experiences
- Cyber threats in XR include data breaches, identity theft, and malware
- Machine Learning enhances cybersecurity through anomaly detection and adaptive defense
- Deep Learning enables real-time threat detection and predictive security models
- Privacy and data protection in XR require encryption, consent policies, and compliance
- AI-driven XR cybersecurity trends focus on intrusion response, case studies, and ethical AI

PARTICIPANT PROFILE

Faculty from AICTE approved Engineering Colleges and Polytechnics with relevant background. Candidates from

ANRF Sponsored National Level Seminar
