Table No. D2.1: List of various safety measures in laboratories.

Sr. No	Laboratory Name	Safety Measures
1	Software Development Lab	General Rules of Conduct in Laboratories are displayed. Periodical servicing of the lab equipment. Electrical Cables pass through panels and lie unreachable for the students. Electrical Connections are properly earthed, hence no chance for shocks Dress code is strictly enforced to the students during laboratory classes. Fire extinguishers and Smoke detector are installed in each floor and periodically checked by the company personnel. The usage of fire extinguisher and Smoke detector are demonstrated to all the members Maintain a clean and organised laboratory. Lightning arrestors are installed in all the buildings First aid boxes are kept in all the floors for the safety purpose during emergency need Avoiding the use of cell phones. Appropriate storage areas. Permission denied for pen drives. Signing the log-out register before leaving the lab. Computers should be turned off properly before leaving the lab. The student must check the computer unit and its peripherals attached before using it. The student must immediately inform the instructor if there's any defect, error or damage observed at the computer (hardware/software).

1. Project Laboratory

The components and facilities available in the project laboratory empower students to undertake real-time projects and explore emerging technologies. The lab is designed not only to support high achievers aspiring to participate in prestigious competitions such as Ideathon, Proof of Concept(POC),Hackathon,Smart India Hackathon (SIH) and Codeathon but also to encourage and motivate slow learners by providing them with exposure, guidance, and opportunities to build confidence through practical engagement. Thus, this laboratory act as a comprehensive platform for all students, fostering creativity, collaboration, and excellence in project-based learning.

The Department provides well-equipped laboratories that enable students to carry out their project work effectively. All laboratories are supported with high-speed internet connectivity and computer systems installed with advanced software tools, ensuring that students have access to the necessary resources for their academic and research projects.

The Components in this project laboratory (as listed below) provide a wide range of opportunities for the students to undertake real time projects in various domains according to their individual interests.
